## Partners & Programs

Boys and Girls Clubs of America provided a \$15,000 grant to support our Net Smart program.

Last year the Boys & Girls Club of Lancaster received support through powerful community partnerships. Combined, these partnerships provided more than \$70,000 in funding for our after school homework help program, Power Hour and other educational programs like Net Smart, an Internet safety program. Our members have the opportunity to succeed in school because of these generous programs and the consistent positive and safe influences they encounter. Thank you to all who've helped give the ultimate gift, the gift of learning!
